I am a skilled full stack web developer with experience in HTML, CSS, JavaScript, jQuery, Node.js, React, Express, NoSQL/MongoDB, PostgreSQL, and GraphQL. I have managed web content, design, and backend databases for multiple projects, ensuring responsive and accessible websites. As a result of my background in Cyber Security, I also have a keen eye for security vulnerabilities and have implemented security measures to protect web applications.

EDUCATION AND CERTIFICATIONS

CERTIFIED FULL-STACK SOFTWARE ENGINEER University of Utah AUG 2024
SKILLS ACQUIRED

- Learned front-end and back-end technologies including HTML, CSS, JavaScript, jQuery, Node.js, React, Express, PostgreSQL, NoSQL/MongoDB, and GraphQL.
- Developed and deployed full-stack applications, incorporating best practices for responsive and accessible web design.

CERTIFIED IN CYBERSECURITY ISC2 DEC 2022
SKILLS ACQUIRED

- Basic security principles
- Incident response
- Network Security
- Security Operations

SECURITY+ CompTIA OCT 2022
SKILLS ACQUIRED

- Compare and contrast types of attacks
- Explain vulnerability scanning concepts
- Install and configure network components, both hardware- and software-based, to support organizational security
- Understand Architecture and design for security concepts and best practices
- Understand the importance of policies, plans and procedures related to organizational security
- Compare basic types of cryptography

EXPERIENCE

NOVACOAST INC.
DEDICATED SOC ANALYST JAN 2024- PRESENT

- Adhere to strict SLA.
- Working closely with higher tier security teams to help mitigate threats.

SOC ANALYST 1 MARCH 2023- JAN 2024

- Monitor and analyze security events and incidents using SIEM (Security Information and Event Management) tools such as LogRhythm, Microsoft Sentinel, Splunk/Phantom, Cloudflare, CrowdStrike and Service-Now to detect and respond to cyber threats in real-time.
- Conducting in-depth investigations into security alerts, determining their validity and potential impact on the organization's systems and data.
- Produce detailed reports and documentation of security incidents, including root cause analysis, impact assessment, and remediation recommendations.
- Corresponding with clients regarding their security needs.
- Participate in security awareness training and knowledge sharing sessions to educate staff on cybersecurity best practices and emerging threats.

PIPER AIRCRAFT

AUG 2021-MARCH 2023

AIRCRAFT WORKER AND QA INSPECTOR

- Conducted routine inspections, maintenance, and repairs on aircraft systems and components, ensuring compliance with regulatory standards and safety protocols.
- Documented maintenance activities, including work performed, parts used, and compliance with maintenance manuals and procedures.
- Collaborated with engineering and maintenance teams to perform scheduled maintenance tasks, upgrades, and modifications, optimizing aircraft performance and reliability.

LIFE INSURANCE BROKER

MAY 2019-JULY 2021

LICENSED INSURANCE AGENT

- Met in person with clients to address and fulfill their insurance needs.
- Protected and secured client PII.
- Worked with systems that hosted client financial information and kept PCI/DSS compliance.
- Developed great interpersonal skills through working directly with a diverse clientele.
- Managed a team of 10 people and assisted in training them as well as managed progress, goals, and schedules.
- Utilized a database to analyze charts and graphs for keeping track of progress and important client and team information.
